ALL INTERESTED STUDENTS AND FACULTY ARE WELCOME TO ATTEND!

The University of Michigan Center for Occupational Health and Safety Engineering invites all interested students and faculty to tour neighborhoods in southwest and eastside Detroit to learn about a variety of environmental hazards and restoration activities.

**Featured sites:** Ambassador Bridge, Detroit Incinerator, Zug Island, old Uniroyal site, Beard Elementary School, Marathon Oil Refinery, Hantz Woodlands, Belle Isle

**Lunch:** The award-winning and famous Slows Bar-B-Q, located on Cass Avenue. Vegetarian options available! **Optional.** (Cost: Approximately $10) Or bring your own!

**The tour will be co-led by:**

- **Charles Stokes** Detroiters Working for Environmental Justice (DWEJ) will provide commentary on environmental issues as an activist and organizer.

- **Ren Farley** Research Professor Emeritus, Sociology, Institute of Social Research, University of Michigan will provide cultural and historical commentary about Detroit.

- **Stuart Batterman** Professor of Environmental Health Sciences and COHSE Center Director will discuss pollution and health issues in the city.
