

Date	Session	Time, EDT	Author	Title
Wednesday, October 12th	OE4 - Emerging Technology in Ergonomics	11:00am - 11:15am	Yifan Li, Thomas Armstrong	Model Based Approach of Integrating Spatial and Temporal Tools compared to traditional Time Studies
	OE4 - Emerging Technology in Ergonomics	12:00pm - 12:15pm	Matthew Reed, Sheila Ebert, Clive D'Souza, Monica Jones	Predicting Standing Reach Postures using Deep Neural Networks
	OE4 - Emerging Technology in Ergonomics	12:15pm - 12:30pm	Yifan Li, Charlie Hickman, Amy Zhang, Thomas Armstrong	Hierarchical Task Analysis of Ophthalmology Clinical Exam for identifying Biomechanic risks
	ED1 - Environmental Design	1:30pm - 1:45pm	Kamolnat Tabattanon, Bernard J. Martin	Manual Wheelchair Movement Performance Differences Between Older Adults with Earlier- and Later-in-Life Incidence
	ED1 - Environmental Design	2:15pm - 2:30pm	Nyamedo Yeboah, Augustine Appah Acquah, Clive D'Souza, Bernard Martin , John Arko-Mensah, Julius Fobil	Reliability and Validity of a Newly Developed Ergonomic Assessment Tool for Unstructured and Unregulated Work
	CEDM6 - The Perception-Action Cycle in Action	2:42pm - 3:00pm	Andrew Liu, Hannah Weiss, Leia Stirling	Effect of Display Modality on Simulated On-Orbit Inspection Performance, Initial Results from Human Exploration Research Analog Campaign 6
	Poster Session 1	3:30pm - 4:30pm	X. Jessie Yang, Yuanchen Wang	Humans working with un-reliable automation: Reverse psychology versus disuse Model
Thursday, October 13th	ME2 - Macroergonomics	8:30am - 8:45am	Teerachart Soratana, Yili Liu, Xi Jessie Yang	Effect of Payment Methods in Crowdsourcing Platforms
	PD1 - Design Considerations for Inclusivity, VR, Footwear, Urban Mobility, and Face Masks	11:00am - 11:15am	Rosemarie Figueroa-Jacinto, Elizabeth Kappler	A Discussion on Accessibility, Inclusivity, Cultural Design Considerations, and Health & Safety Advisories for Virtual Reality Head Mounted Displays
	HPM3 - Modeling Driver/Human-Automation Interactions and Teaming	3:30pm - 3:45pm	Ekim Koca, Paul Green	Databases for Estimating Task Element Times: An Overview
Friday, October 14th	C1 - Communications	9:48am - 10:06am	Jessica Witt, Chenxu Ho, Priti Shah	The Impact of Visualizing the Process of Disease Spread on Social Distancing Intentions and Attitudes
	HC12 - Physical Design and Ergonomics in Health Care	11:45am - 12:00pm	Jacqueline Hannan, Gary Weiner, Leia Stirling	Contextualizing Applied Interaction Pressure Data During Simulated Neonatal Ventilation
